INTRODUCTION

Bart Simpson is a fictional character and one of the main protagonists in the long-running animated series "The Simpsons." Created by Matt Groening, the show debuted in 1989 and has become one of the most successful and influential animated series in television history.

Bart Simpson is the eldest son of Homer and Marge Simpson and the brother of Lisa and Maggie Simpson. He is known for his mischievous and rebellious nature, often getting into trouble at school and in his neighborhood of Springfield. Bart is characterized by his spiky hair, blue shorts, red T-shirt with a white short-sleeved undershirt, and skateboard.

Some key aspects of Bart's personality include his love for skateboarding, pranks and causing trouble. He often finds himself in humorous and sometimes outrageous situations, but he has a good heart and occasionally learns valuable lessons. Bart is known for his catchphrases like "Eat my shorts!" and "Ay caramba!"

Over the years, Bart Simpson has become an iconic character in popular culture, representing the naughty and rebellious child archetype. His character has appeared in various forms of media, including video games, comics, and merchandise.

The Bart Simpson journey started the observations of one of its founders that a vast number of features that are taken for granted in modern day applications are not as ubiquitous within the DeFi Space. Machine learning system managing data and user preferences utilities major web application company-based counterparts.

The apps of machine learning algorithms alongside the blockchain technology is the logical solution to make a better experience as it enables natural evolution of society in become more and more decentralized. However decentralization should not necessarily mean the loss of standard AI-based features everyone is used to and is so familiar with today. This gap has motivated us to seek out efficient ways to optimize user experience within decentralized networks.

Why we name it BART Simpson V2 ?

Due we saw already, there is a project name in Bart Coin, Now we decide to make it simple we use name BART2.0, as a meme coin which everyone can have it.

Laugh all the way to the moon with Bart Coin 2.0 (BART2.0) – the funniest meme coin in crypto!

Embrace the meme revolution! Be a part of the adventure of BART2.0 which you can earn USDT by holding it.

TOKENOMIC

TOKENOMICS

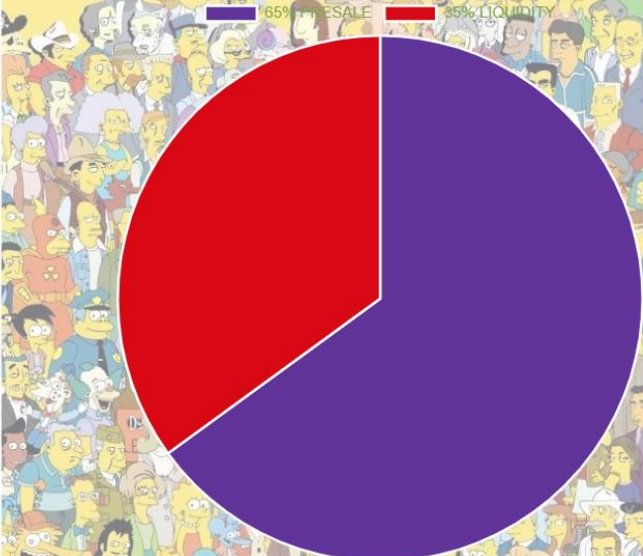

Token Supply: 420,000,000,000,000

Smart Contract:
0x87ce638841b395969d4ADa40e2Ff6019BE2CCAe5

Tax :8/8, 2% Reflection Slipage 8/8. The tax of course will be use for the mass marketing, to make \$Bart2.0 increase in value.

No nonsense, it's as straightforward as it gets. 35% of the tokens will be added to the liquidity pool, 65% of the token supply is reserved for the presale.

WHITEPAPER

Category	Percentage
PRESALE	65%
LIQUIDITY	35%

Holders of the Bart Coin 2.0 can participate in exclusive meme contests, vote on new meme ideas, and access the \$BART2.0 merch store, where they can purchase unique items. \$BART2.0 has a deflationary mechanism built into it, which means that the reward in USDT increases as more you hold it.
